

Nachrüstung von

Mesh-Networking

Sensory for non-response

**dimmbaren
LED Systemen**

alurays

—
LIGHTING
TECHNOLOGY

Upgrading of LEDs already in operation

Lighting on sensor controlled

bluetooth mesh networking for logistics.

Production and storage

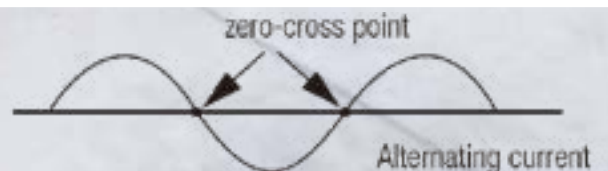

Mounting height max. 15m

Detection max. 24m x 16m

as ceiling installation or installation

Switching power max. 800W

Switching point in the zero pass

Sensorgesteuerte

LED luminaires settle

Depending on daylight incidence

and motion detection

selbstständig

and reduce your

Energieaufwand erheblich

optionale Sensordatenübertragung
