Light Your Project, Your way with alurays.

The alurays lighting technology GmbH provides standard and tailor made products and lighting systems for lighting designers and architects. The projects we support range from large scale exterior installations with complex lighting control requirements to smaller interior projects where more standard control products are often required.

We are a 'go to' solution provider for world class lighting designers and architects.

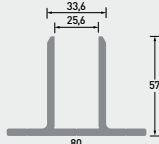

alurays illuminates your project according to your wishes.

The alurays lighting technology GmbH is a highly specialized supplier of LED lighting systems. We develop for lighting planners and architects individually *zugeschnittene, projektbezogene Lichtkonzepte.*

Sie planen im Außenbereich beeindruckende Lichtakzente oder im Innenbereich eine überraschende

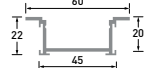

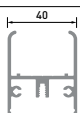

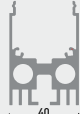

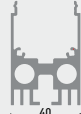

Light mood? In any case, we are the right
Contact person for you!
